OPENINFINITY DESIGN RESOURCES

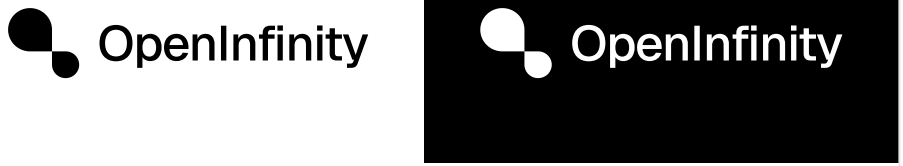

# OpenInfinity

Logos, app icons, color, type, motion and templates for OpenInfinity. Every file can be downloaded and used directly — please read the usage guidelines and trademark terms first.

01

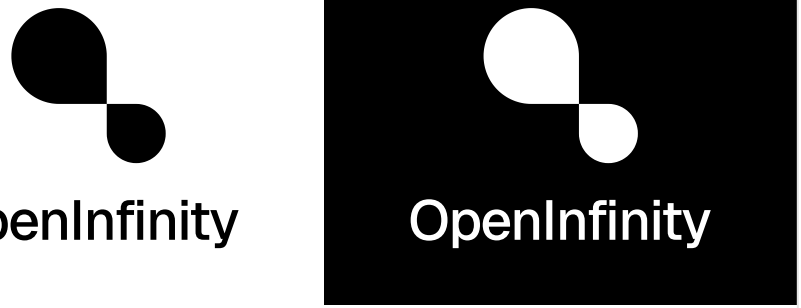

# Logo

Two leaves in the golden ratio (1 : 0.618) meet corner to corner on a 45° diagonal, forming an infinity sign that extends down and to the right. The wordmark is Geist Medium, converted to outlines.

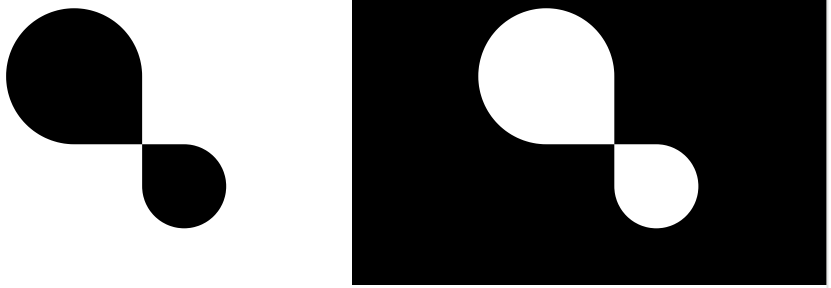

## Horizontal lockup · primary

1.5X between mark and wordmark; wordmark size is 0.7 × mark height.

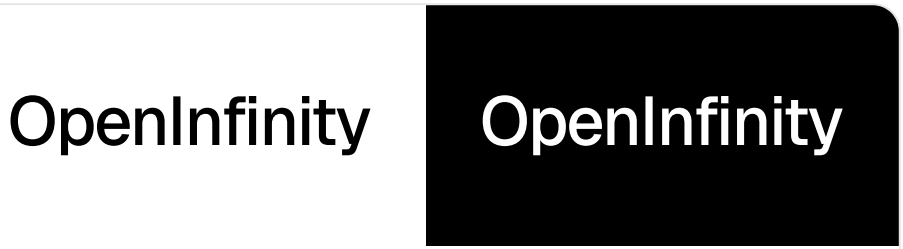

## Vertical lockup

For square or centred layouts; 1.25X between mark and wordmark.

## Mark

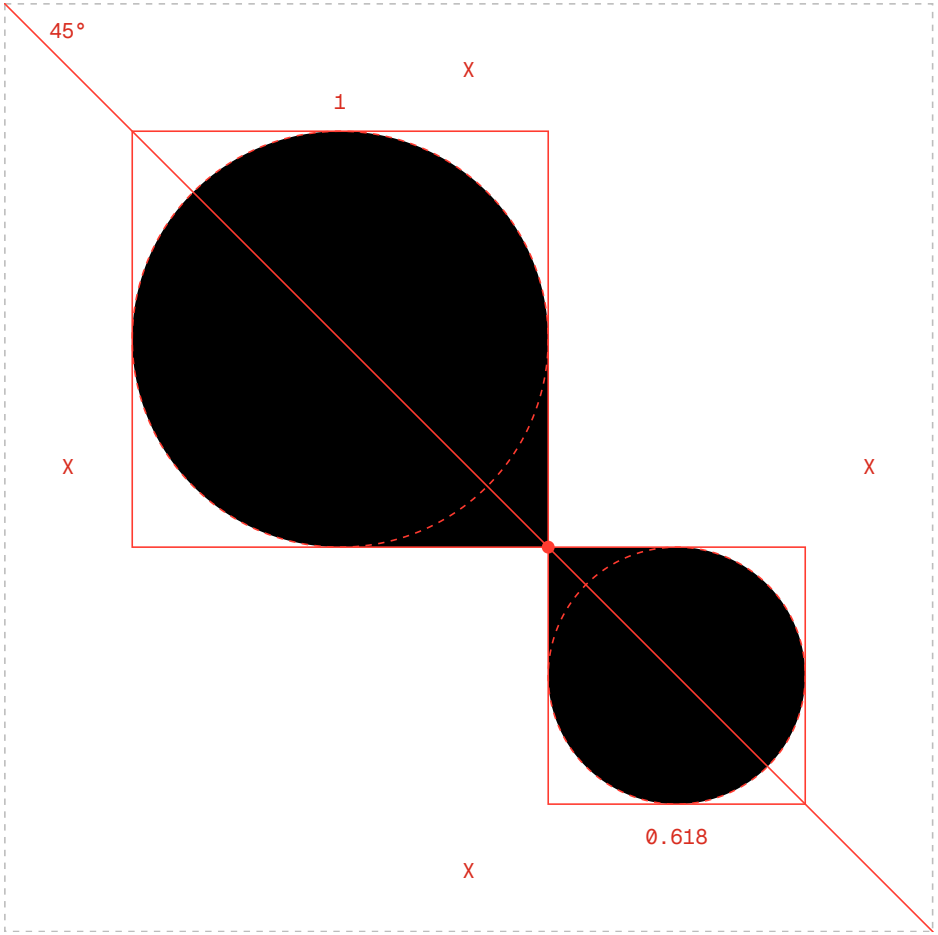

For app icons, avatars, watermarks and tight spaces.

## Wordmark

Use when the mark already appears nearby.

CONSTRUCTION & CLEAR SPACE

### Proportion

Big leaf : small leaf = 1 : 0.618. Big leaf top-left, small leaf bottom-right; never mirrored.

### Unit X

X = small-leaf radius = 0.191 × mark width. All spacing uses X.

### Clear space

Keep at least 1X on every side (dashed box), free of text, graphics and edges.

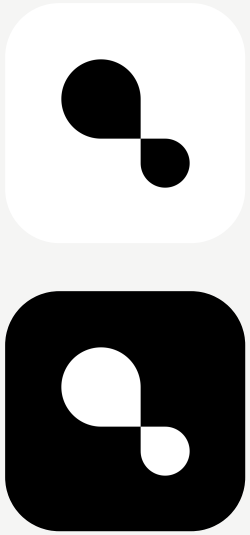

### Minimum size

Screen: mark 16 px, horizontal lockup 96 px wide. Print: mark 6 mm, horizontal lockup 25 mm wide.

02

# App icons

The mark spans about 53% of the icon width, centred. Deliverables are square with no rounded corners — each platform applies its own mask and effects.

## iOS / iPadOS

Xcode asset catalog: one 1024 source with default, dark and tinted appearances. Replace the project's AppIcon.appiconset.

## macOS

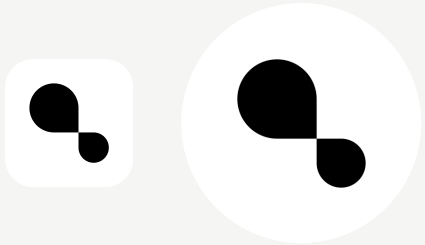

From macOS 26 use the Icon Composer layers (guide below); for macOS 11–15 use the .icns or asset catalog built on the 824 grid.

## Icon Composer

Layers for macOS 26 / iOS 26 .icon files: a 1024 transparent foreground; set the background to #FFFFFF, or #000000 in dark appearance.

Step-by-step guide →

## Web

Favicon (ICO / SVG / PNG), Apple touch icon, PWA 192 / 512 and maskable icons, plus a manifest and <head> snippet.

## Android

Adaptive icon (foreground, monochrome and white background, mdpi–xxxhdpi, with XML) — merge into your res folder. Includes the 512 Play Store icon.

```
<link rel="icon" href="/favicon.i
<link rel="icon" href="/favicon.s
<link rel="apple-touch-icon" href
<link rel="manifest" href="/site.
<meta name="theme-color" content=
```

## Web <head> snippet

Put the web files at your site root and add this to <head>.

03

# Color

Ink and Paper are primary. Graphite, Mist and Midnight serve UI and dark contexts. Signal, Electric and Lime are optional accents — pick one and keep it. Click a value to copy it. CMYK values are approximations; proof before printing.

## Ink · 墨

Primary: logo, text

| | |
|---|---|
| #000000 | HEX |
| 0 0 0 | RGB |
| 0 0 0 100 | CMYK |

## Paper · 白

Primary: background

| | |
|---|---|
| #FFFFFF | HEX |
| 255 255 255 | RGB |
| 0 0 0 0 | CMYK |

## Graphite · 石墨

UI dark text

| | |
|---|---|
| #18181B | HEX |
| 24 24 27 | RGB |
| 11 11 0 89 | CMYK |

## Mist · 雾白

UI light surface

| | |
|---|---|
| #F5F5F4 | HEX |
| 245 245 244 | RGB |
| 0 0 0 4 | CMYK |

## Midnight · 午夜

Dark mode, slides

| | |
|---|---|
| #0B1220 | HEX |
| 11 18 32 | RGB |
| 66 44 0 87 | CMYK |

## Signal · 信号橙

Accent (optional)

| | |
|---|---|
| #FF4D00 | HEX |
| 255 77 0 | RGB |
| 0 70 100 0 | CMYK |

## Electric · 电光蓝

Accent (optional)

| | |
|---|---|
| #2440FF | HEX |
| 36 64 255 | RGB |
| 86 75 0 0 | CMYK |

## Lime · 青柠

Accent (optional)

| | |
|---|---|
| #C8F560 | HEX |
| 200 245 96 | RGB |
| 18 0 61 4 | CMYK |

04

# Typography

Geist for Latin text and numerals, Source Han Sans (Noto Sans SC) for Chinese. Both use the SIL Open Font License 1.1 — free for commercial use and embedding.

Captions and notes

05

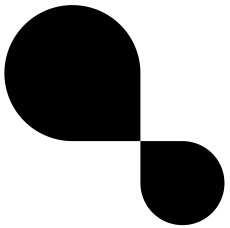

# Motion

Every movement pivots on the point where the leaves meet. Durations step down by the golden ratio: 600 / 370 / 230 ms. With reduced motion enabled, show the static mark. Videos come on white, black and transparent backgrounds.

OpenInfinity

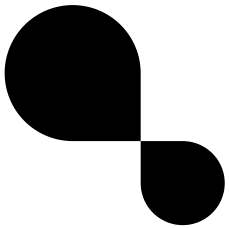

## Reveal

Big leaf grows from the contact point in 600 ms; small leaf follows after 230 ms over 370 ms; wordmark fades in over 370 ms. Curve cubic-bezier(0.22, 1, 0.36, 1). For launch screens and video intros.

## Infinite

The leaves swap size around the contact point (1 ⇔ 0.618), 2.4 s per cycle, seamless loop. Curve cubic-bezier(0.65, 0, 0.35, 1). For waiting, thinking and empty states.

## Loading

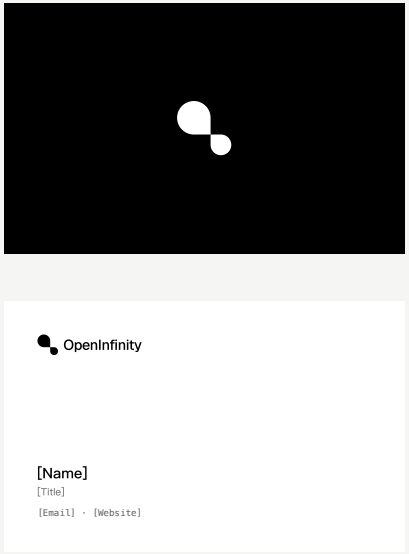

The mark turns 90° at a time around the contact point, 600 ms per step with ease-in-out. For loading and syncing indicators, 16 px minimum.

ProRes 4444 MOV files with alpha (for video editing) are large and ship only in the Motion ProRes archive under Downloads.

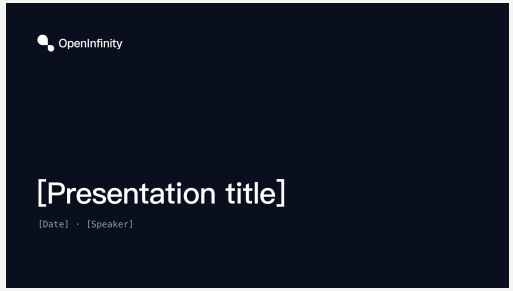

06

# Templates & social

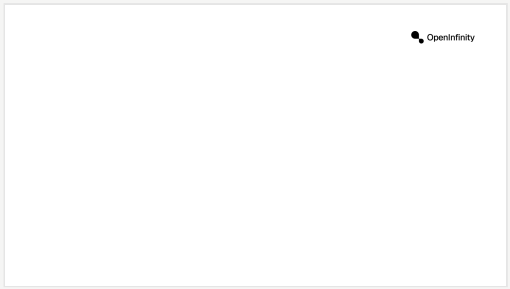

Templates with text come in Chinese and English; edit the bracketed placeholders in the SVGs. Business cards are 90 × 54 mm with 3 mm bleed.

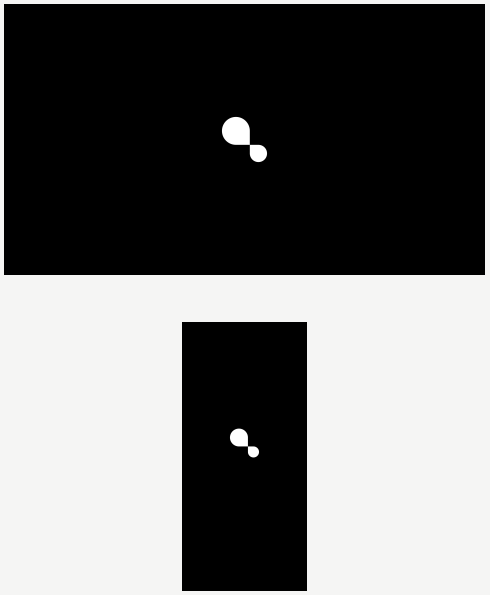

## Business card

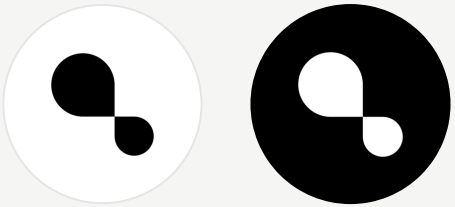

## Slide cover 16:9

## Video-call backgrounds

## Wallpapers

## Avatars

Works for round or square avatars on GitHub, WeChat, X and more.

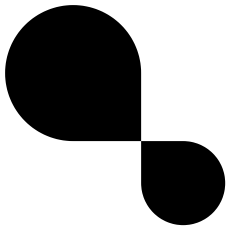

## Banners & share images

GitHub social preview 1280 × 640, Open Graph 1200 × 630, X header 1500 × 500, LinkedIn banner 1584 × 396.

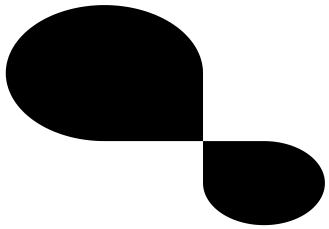

07

# Usage

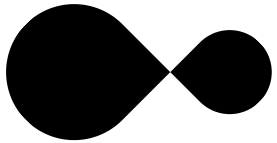

Only scale the logo proportionally; never change its orientation, proportions or colours. When in doubt, use the original black or white files.

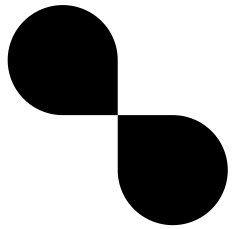

✓ Scale proportionally

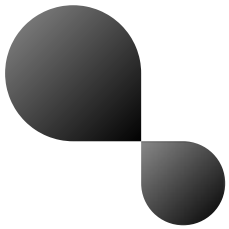

✕ Don't stretch

✕ Don't rotate (the 45° diagonal is part of the mark)

✕ Don't change the 1 : 0.618 ratio

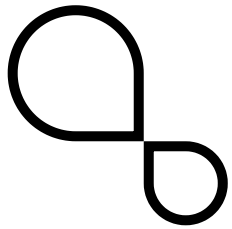

✕ Don't add shadows, gradients or 3D effects

✕ Don't colour the leaves differently

✕ Don't place on low-contrast backgrounds

✕ Don't outline the mark

09
